## EXPERIENCE

### Qway Technology

Jul 2022 - Present

React.js Developer

Remote

- Developed, enhanced, and tested modern web applications using React.js, Next.js, TypeScript, and JavaScript, improving development efficiency by 20%.
- Built over 15 dynamic server-side rendered and static web pages using Next.js, enhancing SEO and improving performance by 30%.
- Maintained state management for applications with Redux, effectively dispatching over 100 actions daily to ensure a seamless user experience.
- Developed RESTful APIs with Express.js, enabling reliable backend communication across multiple endpoints.
- Spearheaded the development of a real-time analytics dashboard by integrating React.js with WebSocket, achieving 95% uptime and improving data visibility for end-users by 40%.
- Optimized a legacy application, reducing load time by 35% through advanced React optimization techniques such as lazy loading and tree-shaking.
- Planned and executed an interactive collaboration tool with Next.js and Redux, enabling real-time sharing of tasks, notes, and updates for over 100 users, increasing collaboration efficiency by 25%.

### Freelancing Upstack

Jan 2022 - Nov 2022

Frontend Developer

Remote

- Planned and optimized reusable React components, improving code modularity and reducing development time for future projects by 25.
- Implemented analytics tracking features using Google Analytics and Tag Manager, providing clients with actionable insights and increasing data visibility by 40
- Built custom animations and transitions using CSS and JavaScript libraries, enhancing user engagement and improving user interaction by 15

## PROJECTS

### e-Commerce Project (B2C)

[GitHub](#) [Demo](#)

- Description: Developed a full-stack eCommerce website using the MERN stack for a seamless shopping.
- Designed a responsive frontend using React..
- Built RESTful APIs for product catalog, authentication, and cart management.
- Integrated MongoDB for database management and optimized queries for performance.
- Implemented JWT-based user authentication and secure Stripe payments.
- Utilized Redux for efficient state management.

### YouTube Clone

[GitHub](#) [Demo](#)

- Description: Built a frontend website for live video experiences using React and Google APIs.
- Designed a responsive UI using React and Tailwind CSS.
- Integrated Google APIs for video streaming and search functionality.
- Managed state with Redux and RTK.

## TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS  
Frontend: React.js, Next.js, Tailwind CSS, Material UI, Bootstrap  
State Management: Redux, Redux Toolkit, Context API  
Cloud Tools: Firebase, AWS Cloud, GitHub, Jira  
Others: RESTful APIs, Webpack, NPM, Jest

## EDUCATION

### Vinoba Bhave University

Sep 2020 - Aug 2022

MBA (IT and Finance)
